AGENDA ITEM: VI.A. – 2018/2019 Budget

Please refer to the March, April, & May Finance Committee background for previous information.

There are several challenges unique to the 2018/2019 budget year. For example, on December 18, 2017 the Board approved using fund balance to invest in high school technical education equipment. As of this writing, about $600,000 has been booked through May 31 with about $400,000 of purchase orders remaining outstanding including 2 mills which will be delivered any day. This complicates how to report the $400,000 of transactions for budget planning purposes. Generally accepted accounting principles, (GAAP) will need to be followed and might not always make sense. Consequently, the June 25 Detail Budget draft will likely have significant changes between the current year-end and the upcoming budget-year.

There are at least ½ dozen similar situations with significant work-in-progress & year-end complications from an accounting and budgeting standpoint.

Two others for example: 1) The mis-match of the sale of Donges Bay property with the purchases of the MacArthur & Amy Belle adjacent properties; 2) Costs have already been incurred for the Amy Belle project and booked this year. Construction costs will occur next year. However, the board is using fund balance as the financing mechanism.

The June 25 Draft of the 2018/2019 Detail Budget report is attached (also posted at the FC web link) and reflects assumptions made on my part relative to the above discussion. Please take time to read the very first page, if nothing else..

**Great News**
Using an increase in the tax base growth of 3.25%, I am estimating the tax increase on a home valued at $250,000 will range from $3.91 (less than 1%) to $76.04 (3.41%).

This will all be pending the final state equalized aid.

*Continued ....*
Balancing the Budget
Given the board resolutions on the use of the fund balance, line 141 demonstrates that the Proposed Budget is greater than the targeted budget by $98,636 or a budget surplus. Although, many items are still not included in this draft as identified on lines 33 to 42.

ATTACHMENT(S): Detail Budget Report, with timetable & state imposed revenue control worksheet. Also posted at FC web link.

RECOMMENDATION: None.
$18,920: Pupil Services - iPads

Recommendation to the Board of Education and Finance Committee:
Bring forward to the Board of Education with a positive recommendation to purchase 44 replacement iPads for an amount not to exceed $18,920.00, as presented, and charge to the appropriate IDEA Federal Flow-Through accounts of the special education budget.

From Director of Pupil Services, Todd Lamb

Background:
Students and staff utilize iPads for communication and other instructional purposes for which specific apps are required. Previously purchased iPads were scheduled into a routine replacement cycle that is currently past due. Many of the devices in need of replacement are no longer compatible with district wireless technology and/or do not support the current versions of apps. A districtwide analysis of student/staff needs in comparison to available devices resulted in the determination that 44 new iPads are necessary to be purchased.
